Who are Lumax

Who are Lumax

Lumax are a professional manufacturer of LED work-lights, based in Weihai, Shandon g, China.
A joint venture between Ceta Form Hand Tools of Türkiye and Top-Power, China. Lumax supply private label work-lights to leading brands and distributors, worldwide. Incorporating innovation and the latest technology, Lumax aim is to be the leading manufacturers of work-lights in China.

Our Vision

Our vision is centered around delivering the most innovative LED work-lights for professional users. Whether it is a handy torch, a head-lamp, a hand-held work-light or a floor standing flood-light, all our products incorporate modern designs, high quality materials and high spec components. New and unique work-lights are being added to the range every month. Lumax work-lights are suitable for automotive, aviation, industrial, maintenance, electrical, plumbing and construction markets, to name but a few.

Product Index

Quality Control Capabilities

Quality

Lumax Lighting Company takes quality seriously, making sure every light we produce meets the highest standards. We have a rigorous quality control process at every step of making our lights. This means our lights not only meet the industry standards but often surpass them.

Our Labs

Our cutting-edge labs are at the heart of Lumax's commitment to ensuring the quality of our lights. These well-equipped facilities are staffed by experts who excel in their field. In these labs, we rigorously test our lights to ensure they perform flawlessly in various situations

Quality Control

We test our lights in all sorts of ways. We check how bright they are, how they handle heat, and how they perform in different environments. This ensures that our lights last a long time and work well, just like they're supposed to.

Production Capabilities

Environment

In our labs, we don't just test the lights; we also scrutinize the materials we use. We ensure that the materials are not only durable but also environmentally friendly, minimizing any negative impact on the planet. This way, you can trust that our lights are both high-quality and environmentally responsible.

Innovation

Our labs are also where we come up with new ideas and technologies for lighting. We're always working on making better and more innovative lights. This way, we stay at the forefront of the lighting industry.

High-End Product

In a nutshell, Lumax Lighting Company is dedicated to producing high-quality lights that meet the highest standards. Our labs are pivotal in making sure our lights work well, last long, and are environmentally responsible. Plus, we're continually developing new and innovative lighting solutions to lead the industry.

# Our quality, will be in your brand!

100% Bespoke Manufacturing

Have you got a unique design idea? No problem, we are a competent partner to realize your project. Our design team can cooperate with you to generate 3D models and prototypes.
Once approved, the necessary injection mold toolings, etc. will be developed for the desired model range. Your idea will be in serial production in truly short period.
Take advantage of our offer; please feel free to talk to us for details.
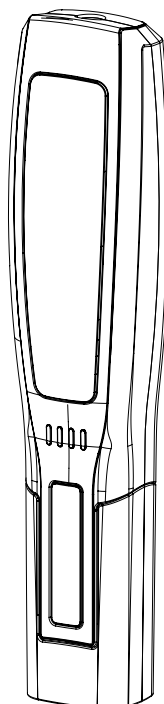

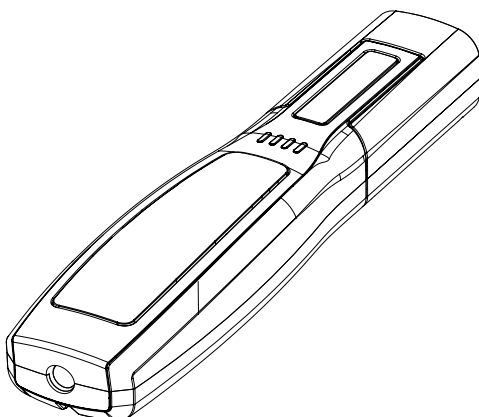

With the striking design, our polycarbon cover, keeps your logo safe for any damage

Packaging and Kits

The ultimate in quality deserves the ultimate in packaging. Therefore, we offer a limitless choice of packaging alternatives. Your brand could be on the forefront on the market with innovative packaging solutions from us.
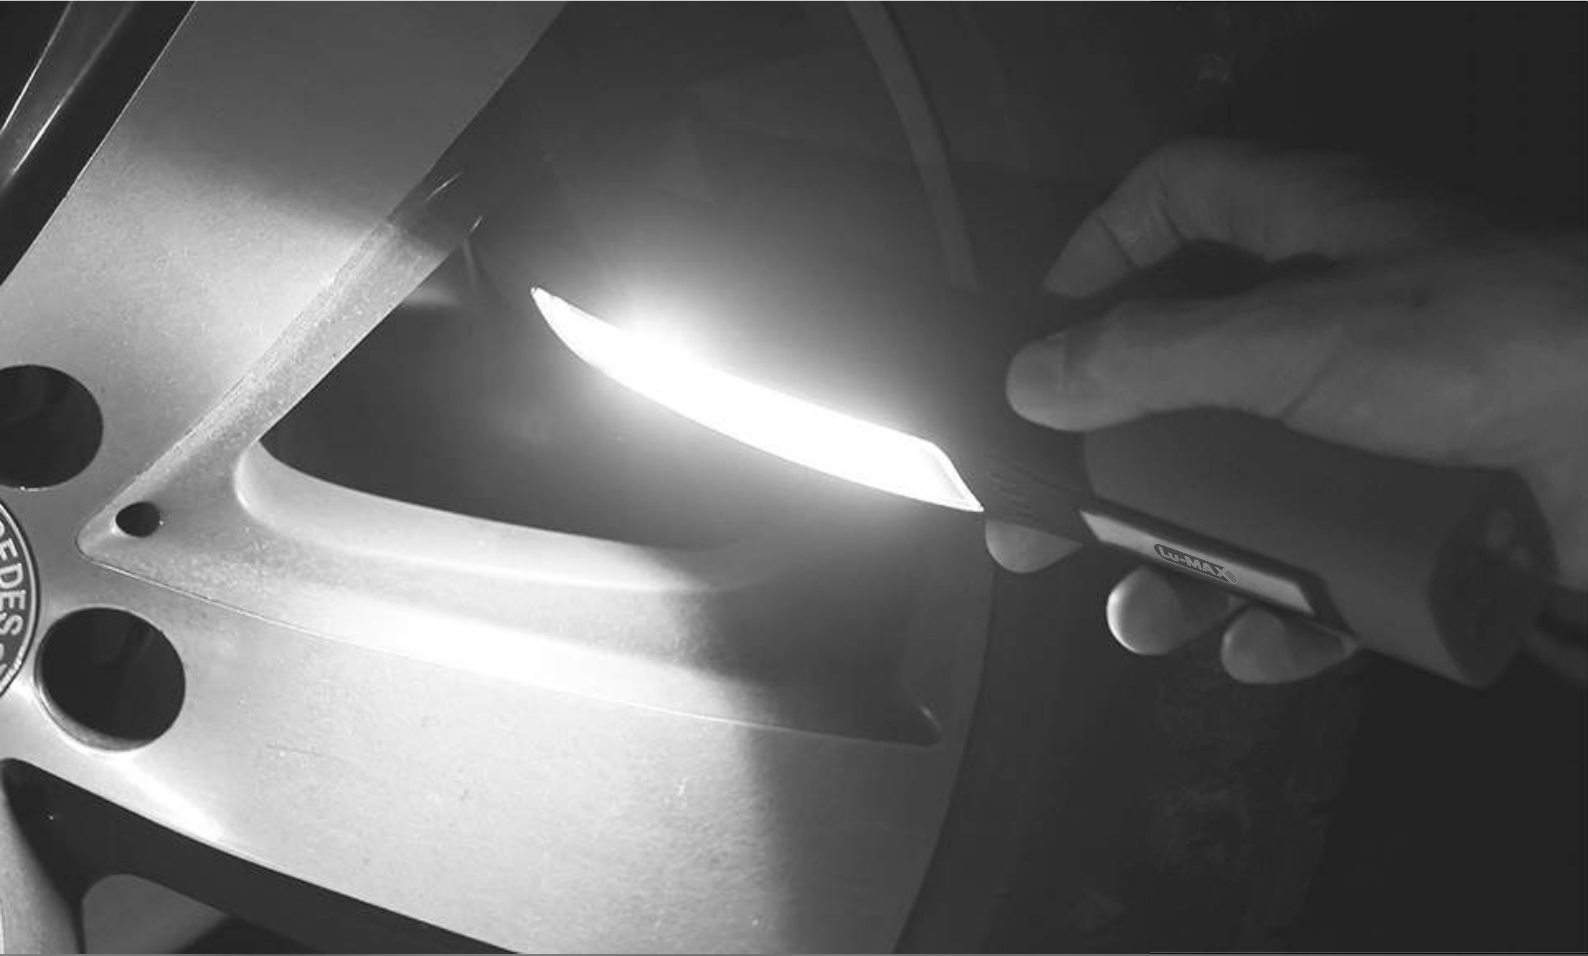

LED Inspection Lights (Full Size)

LMA001-001
Rechargeable COB LED Inspection Light

1000 lumens COB LED

180°

Durable housing, hooks and lens
180 degree pivoting handle
Super strong magnets in the
handle and back
4 LED battery level indicators
show the charge status

Main light: 10W COB LED, 6500K, 80+CRI
Top light: 4W SMD LED, 6500K, 80+CRI

Main light: 250 / 500 / 1000 lumens
Top light: 150 lumens

Battery:
3.7 V 2600 mAh Li-ion
